

Additional menu item added to the main navigation on the My Account homepage linking to the rewards overview page.

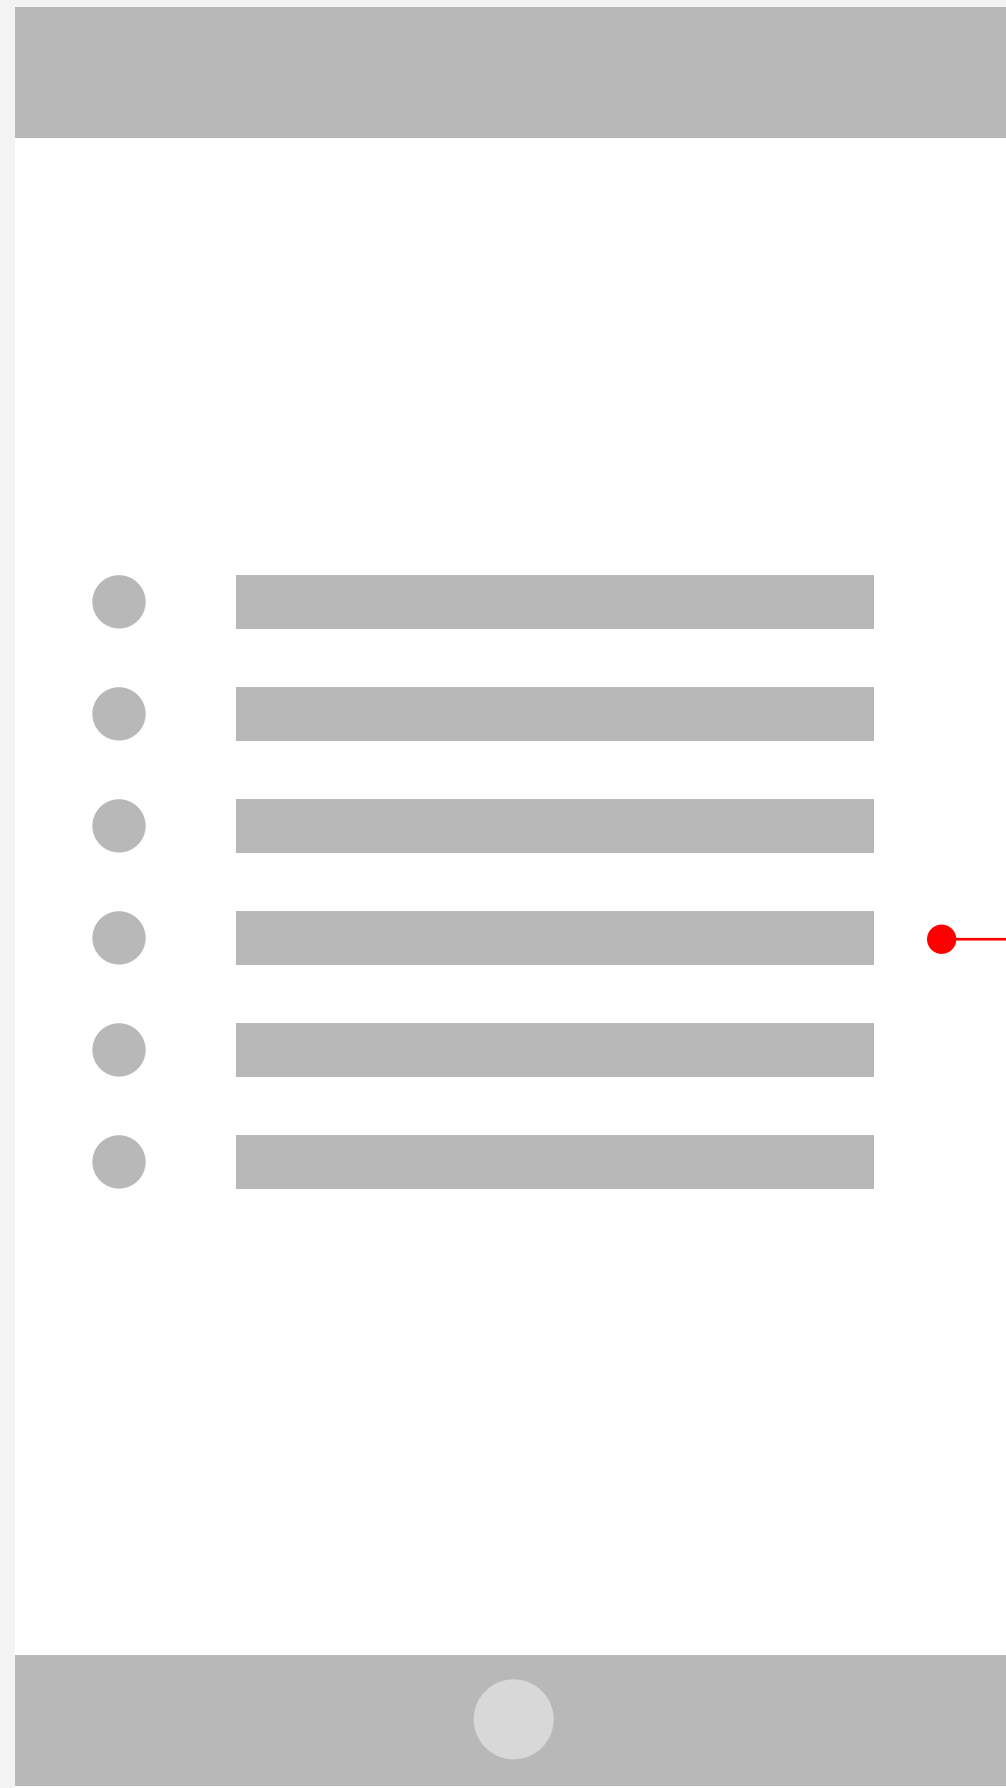

The top of the page will provide a summary of rewards information (including pending and available amounts) with the option to redeem any amounts due. The mid section will provide a summary of the rewards program, and the bottom section will provide details of the participating retailers including logos for each to reinforce brand association.

Customers with more than one card will be required to select the card they wish their rewards to be allocated to. Rates of exchange will be displayed as well as the current balance. Customers with only one card will bypass this stage and go directly to the confirm page.

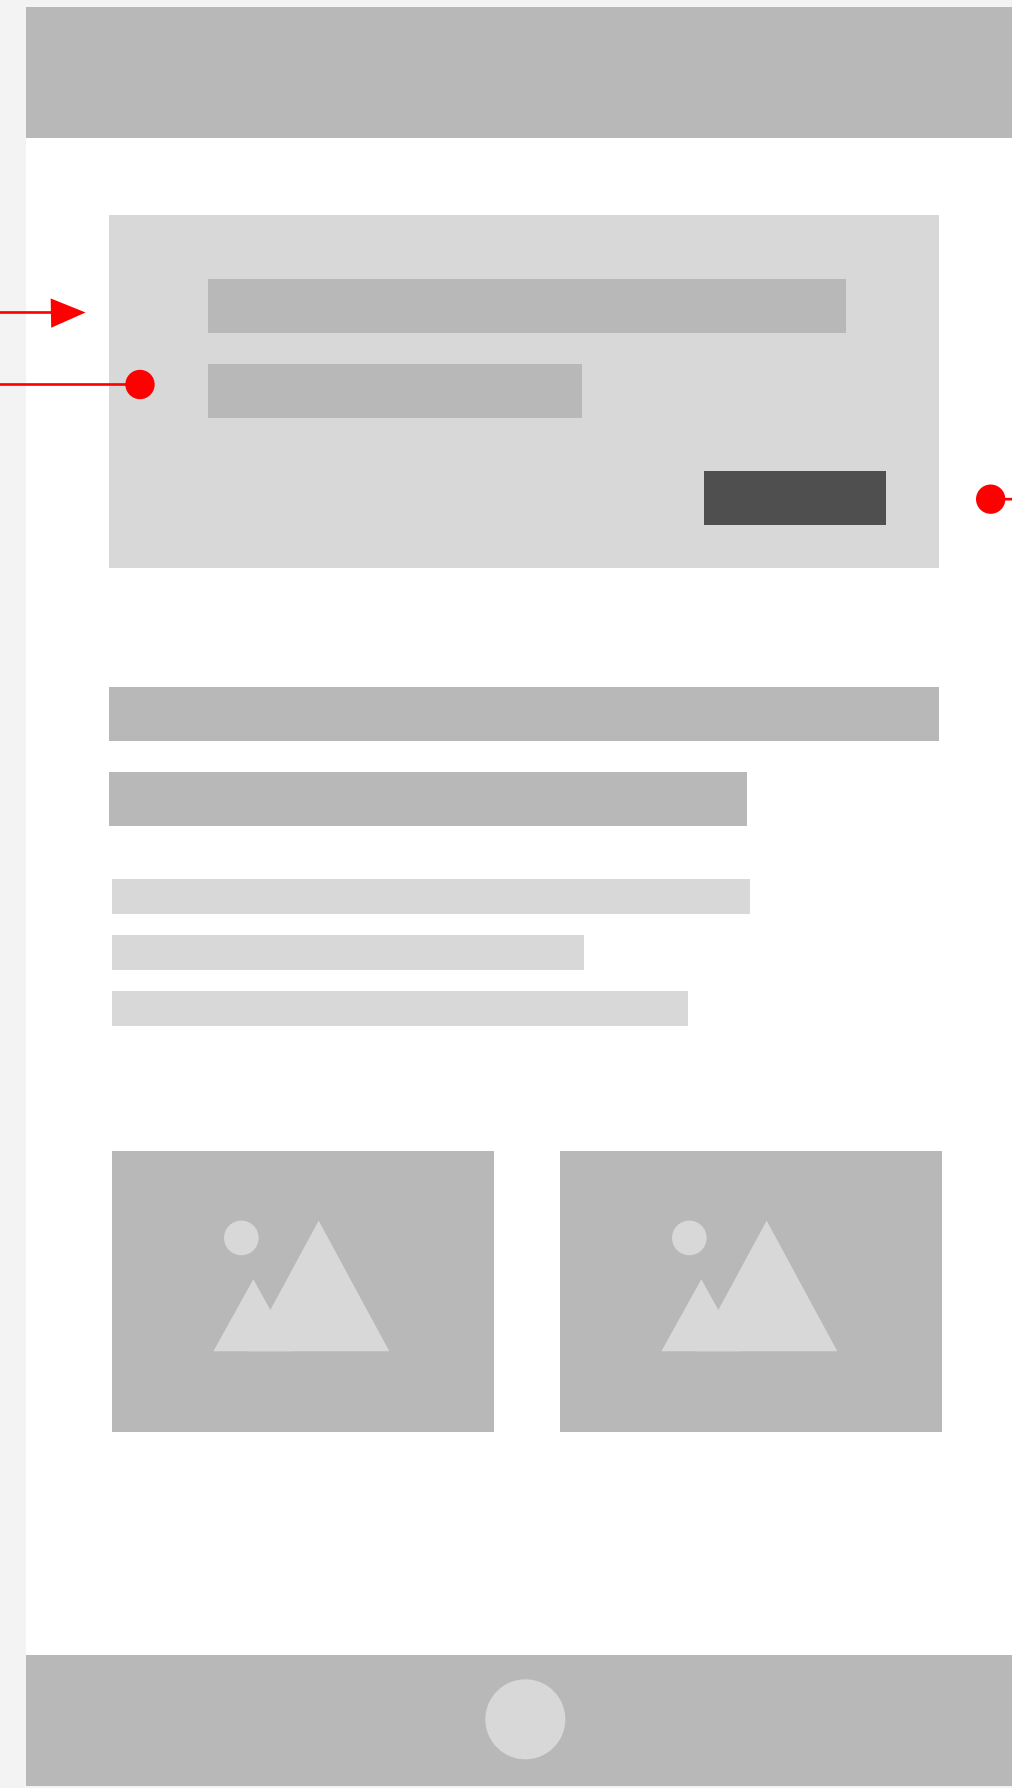

Confirm page will allow the user to review a summary of the redemption before confirming they wish to proceed.

Success page will provide feedback to the user that the redemption has been completed and their new card balance will be displayed. Navigation will be provided to return the user to their account.
